

# RIGHT CARE. RIGHT FIT. LASTING ALLERGY & ASTHMA RELIEF.

*Together, we help patients breathe easier – and get back to living!*

We support your care plan, not replace it, with clear closed-loop communication and shared visit notes back to your practice.

- 1 Refer a Patient to Us**  
Fax the patient’s detailed clinical history and contact information to us.
- 2 We Establish Care**  
We’ll reach out to your patient and schedule them for a new patient visit.
- 3 Journey to Relief**  
We’ll identify the root cause of symptoms and create a customized treatment plan.

## Benefits of a Specialist

**Specialty Expertise That Makes a Difference**  
Our Board-Certified Allergists and Advanced Practice Providers are specially trained with a core focus on allergy, asthma, and immunology.

**Accurate Answers, Faster Relief**  
We use advanced diagnostics and interpret results within the context of each patient’s symptoms, leading to an accurate diagnosis and an individualized treatment plan that fits their symptoms and lifestyle.

**Safe & Effective Treatment Options**  
From inhalers and immunotherapy to the newest biologics, patients gain access to a variety of therapies to help manage their symptoms and experience long-term relief.
