

ALLERGY & ASTHMA CENTER

Fee Schedule

Your insurance will be billed for your allergen extract when it is prepared. Initial serum consists of an entire set of bottles, therefore the cost is higher. The cost for new starts are as follows:

\$1794.00 for three aqueous sets, \$1196.00 for two aqueous sets, \$598.00 for one aqueous set

Serums expire every six months and are automatically renewed unless the office is notified in writing of your intention to discontinue at least one month prior to its expiration. You will be responsible for payment of any renewed extract prepared for you.

There is a separate fee for the administration of allergy injections.

One injection costs \$25, and two or more injections costs \$29.

You may be subject to a co-pay for the preparation of extract as well as administration of the injections. You can contact your insurance company and request details of what you will be responsible for using the following codes:

95165- make serum

95115- one injection

95117- two injections

Prices are subject to change at any time. It is your responsibility to receive the schedule doses of extract. We can not reimburse you for missed doses or expired extract.

If you would like to take your extract to be administered at an outside facility, your account must be paid in full unless other arrangement have been made in writing.

I have read and understand the information provided regarding aqueous immunotherapy. I hereby consent to the preparation, administration, and automatic renewal of extract. I understand that, should I wish to discontinue my immunotherapy program, I must notify the office in writing or I will be responsible for payment of any renewed extract prepared for me. I understand that annual appointments to review my immunotherapy program is required.
